DIRT JUMPERS

Mountain biking and dirt jumping have cross-pollinated over the years which has resulted in some really fun riding. This year, Kona GB Hardtails have taken a turn towards pure jump designs, which includes changes in frame geometry, dimensions, and details. These bikes are designed to be put in the air, and to stay there for as long as your huevos can stand it. From dirt-jump parks to launching down trails, these bikes are built with maneuverability and durability leading all else.
